CYBELEC
INFRANOR GROUP COMPANY
CybTouch 12 PS
Synchronized Press Brakes

The Intuitive Programming

CybTouch 12 PS is intended specifically for synchronized press-breaks.

As the entire CybTouch numerical control range, CybTouch 12 PS has an intuitive and fully touch screen human machine interface, integrated in a modern, slim and functional box design.

Thanks to its large keys, online help, simplified software and many other automatic functions that constantly guide the operator and enable CybTouch 12 PS to be used with ease.

CYBELEC
INFRANOR GROUP COMPANY

Easy operating, better bending and powerful features all characterize the CybTouch 12 PS

Easy Operating

- Fully Touch Screen, large and high-contrast interface.
- Hand drawing profile function.
- Simple pages, clear display, large keys.
- Intuitive user-friendly interface.
- Complete programming for efficient mass-production with multiple bends.
- Easy single bends thanks to the EasyBend page.
- Online help and interactive warning pop-up.
- Comfortable wireless software updating and data back-up using PC or Notebook.
- USB port for memory sticks.
- Large variety of languages available.

Better Bending

- Various automatic calculations of bend functions.
- Bending sequences and programs can be memorized.
- Angle, pressure and crowning management.
- Easy manual movement.
- EasyBend page provides immediate easy use of the machine: a second operator can briefly interrupt production without changing the program when an urgent bend is required.

Powerful

- 4 axes control (Y1-Y2-X-R).
- 2D graphic part creation with manual sequencing.
- Automatic bend order calculation (option).
- Bend allowance calculation.
- Pressure – crowning calculation.
- Modulable tools for each part or bend.
- Punch depth calculation.
- Angle and back gauge correction.
